

UNITED WE BREW

## 2025 Course Offerings

### 2025 Full Courses

The Master Brewers "full" courses offer a hybrid format, combining the flexibility of online learning with hands-on in-person learning. Participants benefit from a wide range of topics covered by 20+ industry experts, growing their network while gaining immediately applicable knowledge and skills.

#### Brewery Maintenance Systems

Virtual: May 19-July 17  
On-Site: July 28 - 31

Expand your foundational knowledge in the maintenance and engineering technology principles and processes of brewing, utility, and packaging system design and operation.

*"I learned much more than I anticipated and walked away with a well-rounded perspective on equipment maintenance. I would highly recommend this course for anyone looking to broaden their knowledge of these topics."*

- Daniel Anderson, Pinthouse Brewing  
2024 Course Participant

#### Brewing and Malting Sciences

Virtual: August 21 - October 9  
On-Site: October 20 - 24

Gain a greater understanding of the scientific principles, operations, and guidelines associated with the brewing and malting process to increase your technical acumen.

*"I would not second guess the opportunity to take this course or any others offered by MBAA. This course is an experience of a lifetime!"*

- Steve Greene, Molson Coors  
2024 Course Participant

### NEW! Virtual Courses

#### Brewery Packaging Light

Available Now

This "light" version of our classic Brewery Packaging Technology course is fully on-demand, unlocking the fundamentals of brewery packaging with insights from industry experts.

#### Brewery Safety Series: Lockout/Tagout

Available Now

This on-demand course is the first in our new Brewery Safety Series, which offers a practical approach to safety—Participants walk away with a ready-to-use written program tailored to their own needs.

#### Brewing Calculations Basics

Begins April 1

Registration opens Feb. 18

This course combines self-paced learning with weekly live Q&A sessions. Participants learn the theory behind the calculations needed to create new recipes while creating a calculator tool customized to their needs for future use.
